

BVI German Fund Association
June 12th 2018
Company Type : Buy-Side Trade Association
User Type : Not Registered

Concerning the DSS consultation ending tomorrow, we would like to make the following comments:

- We principally agree with the new category "infrequent users" which could be a good compromise between "registered users" and "standard users". The new category would give for instance the Buy-Side the possibility to create 100 ISINs within a relatively small budget.
- As discussed during our call, we would highly appreciate if the search function could be extended and the comments in the FAQ in respect to the creation of FX Swaps/Forward (e.g. nearleg ISIN/ farleg ISIN) could be further extended and streamlined.
