

## NOTIFICATION: ANNA-DSB FIX ELB IP change in UAT

11:00 am (BST)

### Impact:

Due to the nature of the ELBs used in our UAT environment, users were advised to target the DNS name (fix-uat.anna-dsb.com) and not the IP addresses directly.

- Users that have configured their Firewall to target the FIX ELB IP as opposed to the DNS name (fix-uat.anna-dsb.com) will not resolve anymore
- The below IP are no longer being used. Please refer to the workaround section for current IP's that now need to be configured

52.208.147.241  
52.49.229.237

**Please note:** ELB IP addresses can change frequently and will do in the future. To avoid further disruption please try to configure your firewall rules to target the DNS name and not the IP's directly for the current UAT environment.

**Workaround:**

Please reconfigure your Firewall to target the below IP's;

**34.249.245.97**

**52.30.241.185**

**Expected Resolution Time: N/A**

Please contact [Technical.support@anna-dsb.com](mailto:Technical.support@anna-dsb.com) for all support & connectivity issue.
