

DSB: New documentation available – ToTV, ReST API & Fee Model Final Report
Sent: 28-June-2017

Dear All,

Please note that the DSB published three key documents today:

- draft ToTV/uToTV functional specification - available here <https://github.com/ANNA-DSB/ToTV-uToTV>
- draft ReST API specification - available for registered user by emailing technical.support@anna-dsb.com
- final report following the second DSB fee model consultation – available here <http://www.anna-web.org/dsb-consultation-fee-model-2/>

ToTV/ uToTv Functionality

- The draft ToTV functional specification has been made available to enable market participants to provide feedback on the proposed model
- The ToTV/uToTV will follow this schedule:
 - 28 Jun – ToTV & uToTV functionality draft published
 - 17 Jul – Webinar on ToTV at 1200 UTC
 - 26 Jul – Receive feedback from the industry
 - 09 Aug – Publish final ToTV/uToTV functional specification
 - 16 Aug – Publish delivery timelines and technical specification

ReST API functionality

- ReST API delivery will follow this schedule:
 - 28 Jun – ReST API specification draft published
 - 12 Jul – Receive feedback from the industry
 - 19 Jul – Publish final ReST API specification
 - 26 Jul – ReST API available in UAT

Fee Model Report

- This is a final report following industry response to the second fee model consultation report which closed on 31st May 2017
- Highlights the creation of a new user category to assist users who expect to create ISINs on an occasional basis only

Please send any feedback or questions to secretariat@anna-dsb.com
