

## NOTIFICATION: ANNA DSB UAT – FIX Certification Features Release

**Audience: FIX users**

**Activation: 13<sup>th</sup> September 2017**

### Notification details:

- Addition of the following scenarios to test functionality already set out in the FIX Rules of Engagement:
  - “Search by Attributes” to enable FIX API users to search for a list of ISINs by specific attributes
  - “Retrieve ISIN Record by Attributes” to enable FIX API users to retrieve an ISIN record by attributes without creating an ISIN
  - “Business Message Reject (35=j)” in the Error Codes Test Suite to simulate message throttling which limits multiple inflight messages
  - Update of Create, Search, and Subscribe scenarios in line with expected Power User functionality
- Details on the new test cases can be found in the attached FIX Certification User Guide and via Github <https://github.com/ANNA-DSB/FIX/tree/master/docs>

### Action Required:

- **Please download and review the enhanced certification documentation**
- **FIX Users must complete the additional test cases together with all the required test cases for the FIX Certification**

Please contact [Technical.support@anna-dsb.com](mailto:Technical.support@anna-dsb.com) for all support & connectivity issue.
