

NOTIFICATION: DSB UAT - Industry Wide Load Testing

Audience: Registered Participants of the Load Testing

Notification details:

Thank you for agreeing to participate in the upcoming industry load testing this Friday and Saturday. This notification is to inform you of expected interaction from the DSB during the load test.

During the load testing, the DSB will monitor system performance carefully and may wish to tune the operating load on the system intra-day. In the light of this, kindly expect to be reached out by the DSB advising to either stop, hold-off or change the volume of traffic being applied to the system.

We look forward to working with you over the test period in order to validate the capacity optimisations that have been deployed into UAT and will share the analysis of the test by Friday 20 April.

Please contact technical.support@anna-dsb.com for all support & connectivity issues.
