**Subject:** NOTIFICATION: Q2 2018 DSB ToTV/uToTV Release Dates - REMINDER

16<sup>th</sup> May 2018

## NOTIFICATION: Q2 2018 DSB ToTV/uToTV Release Dates - REMINDER

**Audience: All DSB Users**

### Notification details:

The purpose of this note is to remind DSB Users of the release dates for the DSB's ToTV/uToTV service into UAT and Production.

As a reminder, the DSB will deliver ToTV/uToTV service to Production on 25 June 2018 based on the scope previously communicated [here](#). Between 21 May and 11 June 2018, the DSB will update the UAT environment iteratively to address any identified usability issues with the service, including addressing issues documented on GitHub [here](#).

Please note that as part of the 21 May UAT upgrade, all existing ToTV records (from 15 October 2017 up until now) in the UAT End of Day File Download area will be deleted and recreated from scratch, based on fixing of the identified issues in GitHub. The End of Day ToTV files will be re-created sequentially from 15 October 2017 and will be made available as they are created. Due to the large number of FIRDS delta and snapshot files being processed, the file recreation may continue into the early part of the week commencing 21 May.

### Timeline:

- **21 May 2018** – Update of ToTV/uToTV codebase in UAT based on industry and regulator feedback

- **11 June 2018** – Code freeze in UAT
- **25 June 2018** – DSB's ToTV/uToTV service will be released to **Production**
