

Dear User,

In addition, DSB have also introduced an idle timeout for ToTV requests made via FIX API connectivity where requests take longer than 30 seconds to fulfill as documented in [GitHub#32](#).

FIX API users will receive a response "**Instrument Data Temporarily Unavailable**" whenever the request's idle timeout has been reached.

**Action Required:**

- FIX API users will need to resend the ToTV request when a response "**Instrument Data Temporarily Unavailable**" is encountered.
- The DSB recommends FIX users avoid sending ToTV requests during the ToTV file generation processing time (09:00 am UTC to 12:00 pm UTC) which will minimize delays in ToTV responses. Due to a limitation on the shared infrastructure utilized by ToTV, requests will be throttled once the limitation has been reached.
- If possible, DSB also recommends that DSB ISIN requests are sent on different FIX sessions to ToTV requests as FIX operates on a serial manner/ FIFO.

Regards,

DSB Technical Support Team

24th February 2020

## NOTIFICATION: DSB ToTV/uToTV Release: March 2020

**Audience: All DSB Users**

### Summary:

This notification is to inform DSB ToTV/uToTV users of the release dates for the following items:

- a bug fix for EoD ToTV files as documented in [GitHub 20](#). No EoD ToTV files will or need to be reloaded as a result of that bug fix.
- optimization of DSB's ToTV/uToTV service to make DSB ToTV data available earlier (for download by users), specifically on weekends when the full FIRDS/FITRS files are made available.

2020 March ToTV/uToTV Release	
UAT environment	26 February 2020
Production environment	25 March 2020

### Action Required:

There is no action for those not using the DSB's ToTV/uToTV service.

DSB's ToTV/uToTV users are asked to test DSB's ToTV File Download content and report any issues to [DSB Technical Support](#).

Full details of this release (including key dates, documentation and change details) can be found on the dedicated [DSB Website Release Page](#).
