

Dear Users,

The purpose of this notification is to advise DSB users of the release schedule for UAT2 and Production to implement the DSB Database Component Upgrade as detailed below. The UAT2 environment changes will occur first, followed by Production. This change in the usual deployment order is necessary to mitigate risk to the Production environment. There is no expected impact to users as there are no functional changes included in this release.

UAT2 Implementation Timeline:

Early Weekend Maintenance Schedule for 24th October 2020: 12:00 AM UTC Saturday 24th October 2020 and will finish at 12:30 PM UTC Sunday 25th October 2020.

The UAT2 DSB GUI, REST API, and FIX API services will be unavailable for an additional period of 12 hours on top of the standard maintenance window of 12 hours.

Production Implementation Timeline:

Extended Maintenance Window: Sunday 15th November 2020 00:30am - 20:30pm UTC.

The Production DSB GUI, REST API, and FIX API services will be unavailable for an additional period of 8 hours on top of the standard maintenance window of 12 hours.

Regards,
DSB Technical Support Team

Dear Users,

Please note this has been completed in **UAT**.

Best Regards,
DSB Technical Support Team

22nd July 2020

NOTIFICATION: DSB Database Components Upgrade

Audience: All DSB Users

Notification details:

The purpose of this notification is to inform DSB users that the **UAT DSB GUI, REST API, and FIX API** services will be on an early maintenance schedule on 25th July 2020. This extended maintenance period is required to allow ample time for the DSB Database Component Upgrade which will be applied alongside the standard weekend change releases.

This does NOT affect the Production maintenance window which is scheduled every week from 12:30 PM UTC Sunday to 00:30 AM UTC Sunday.

Release Schedule	
UAT environment	25th July 2020
Production environment	15th November 2020 Production tentative schedule*

***Note:** the Production release date will be dependent upon successful UAT and approval under the additional HAP governance.

UAT Implementation Timeline:

Early Weekend Maintenance Schedule for 25th July 2020: 12:00 AM UTC Saturday 25th July 2020 and will finish at 12:30 PM UTC Sunday 26th July 2020.

Impact to users:

The UAT DSB GUI, REST API, and FIX API services will be unavailable for an additional period of 12 hours.

Action Required:

- This is an informational notice and no action is required to DSB users.
