

Dear User,

This notification is being sent to provide an update on a DSB's Web Application Component upgrade which was tentatively scheduled for 1st November for production. Please note this upgrade will be rescheduled to a future date, date to be confirmed.

Regards,
DSB Technical Support Team

Dear User,

Please note that this has been completed in **UAT**.

Best Regards,
DSB Technical Support Team

9th September 2020

NOTIFICATION: DSB WEB Application Components Upgrade

Audience: All DSB Users

Notification details:

The purpose of this notification is to inform DSB users that the **UAT DSB GUI and REST API** services will be on an early maintenance schedule on 12th September 2020. This

extended maintenance period is required to provide ample time for the DSB WEB Application Component Upgrade and release of minor enhancements to ensure system security can be applied alongside the standard weekend change releases.

This does NOT affect the Production maintenance window which is scheduled every week from 12:30 PM UTC Sunday to 00:30 AM UTC Sunday.

Release Schedule	
UAT environment	12th September 2020
Production environment	1st November 2020 Production tentative schedule*

***Note:** the Production release date will be dependent upon successful UAT and approval under the additional HAP governance.

UAT Implementation Timeline:

Early Weekend Maintenance Schedule for 12th September 2020: 12:00 AM UTC Saturday 12th September 2020 and will finish at 12:30 PM UTC Sunday 13th September 2020.

Please note: UAT FIX API service will remain accessible during the UAT DSB GUI and REST API early maintenance and will follow the regular weekly maintenance schedule.

Impact to users:

The UAT DSB GUI and REST API services will be unavailable for an additional period of 12 hours.

Action Required:

- This is an informational notice and no action is required to DSB users.
