9th October 2020

NOTIFICATION: DSB Database Operating System Upgrade

Audience: All DSB Users

Notification details:

The purpose of this notification is to inform DSB users that the **UAT DSB GUI**, **REST API**, and **FIX API** services will be on an early maintenance schedule on 7th November 2020. This extended maintenance period is required to allow ample time for the OS migration of the DSB Database backend which will be applied alongside the standard weekend change releases.

This does NOT affect the Production maintenance window which is scheduled every week from 00:00 AM UTC Sunday to 12:30 PM UTC Sunday.

Release Schedule	
UAT environment	7th November 2020
Production environment	17th January 2021 Production tentative schedule*

*Note: the Production release date will be dependent upon successful UAT and approval under the additional HAP governance.
