Dear Users,

The purpose of this notification is to remind DSB users of the release scheduled this coming weekend, 9th May 2021 to implement the **DSB Applications Operating System and Component Upgrade** as detailed in the below notification.

Production Implementation Timeline:
Extended Maintenance Window: Sunday 9th May 2021 00:30 AM - 20:30 PM UTC.
The Production DSB GUI, REST API, and FIX API services will be unavailable for an additional period of 8 hours on top of the standard maintenance window of 12 hours.

Regards,
DSB Technical Support Team

Dear Users,

This has been completed in **UAT2**.

Regards,
DSB Technical Support Team

Dear Users,

The purpose of this notification is to advise DSB users of the release schedule for UAT2 and Production to implement the **DSB Applications Operating System and Component Upgrade** as detailed below. The changes will occur in UAT2 first, followed, a week later, in Production, which is a change in the usual deployment order. There is no expected impact to users as there are no functional changes included in this release.

UAT2 Implementation Timeline:
Early Weekend Maintenance Schedule for 1st May 2021: 12:00 AM UTC Saturday 1st May 2021 and will finish at 12:30 PM UTC Sunday 2nd May 2021.

Production Implementation Timeline:
Extended Maintenance Window: Sunday 9th May 2021 00:30 AM - 20:30 PM UTC.
The Production DSB GUI, REST API, and FIX API services will be unavailable for an additional period of 8 hours on top of the standard maintenance window of 12 hours.

Regards,
DSB Technical Support Team

Dear Users,

This has been completed in **UAT**.

Regards,

DSB Technical Support Team

Dear Users,

The purpose of this notification is to inform DSB users of the release schedule for UAT to implement the **DSB Applications Operating System and Component Upgrade** as detailed below.

UAT Implementation Timeline:

Early Weekend Maintenance Schedule for 27th March 2021: 12:00 AM UTC Saturday 27th March 2021 and will finish at 12:30 PM UTC Sunday 28th March 2021.

Impact to users:

The UAT DSB services will be unavailable for an additional period of 12 hours.

Please also take note of the updated **UAT2** and **PRODUCTION** implementation dates below:

Release Schedule	
UAT Environment	27th March 2021
UAT2 Environment	1st May 2021
Production environment	9th May 2021 Production tentative schedule*

(Note that the UAT2 and Production dates have been updated in the original notification below).

Regards,

DSB Technical Support Team

NOTIFICATION: DSB Applications Operating System and Component Upgrade

Audience: All DSB Users

Notification details:

The purpose of this notification is to inform DSB users that the **UAT DSB GUI, REST API, and FIX API** services will be on an early maintenance schedule on 27th March 2021. This extended maintenance period is required to allow ample time for the DSB Applications Operating System and Component Upgrade which will be applied alongside the standard weekend change releases.

This does NOT affect the Production maintenance window which is scheduled every week from 00:00 AM UTC Sunday to 12:30 PM UTC Sunday.

Release Schedule	
UAT environment	27th March 2021
UAT2 environment	1st May 2021
Production environment	9th May 2021 Production tentative schedule*

 *Note: the Production release date will be dependent upon successful UAT and approval under the additional HAP governance.

UAT Implementation Timeline:

Early Weekend Maintenance Schedule for 27th March 2021: 12:00 AM UTC Saturday 27th March 2021 and will finish at 12:30 PM UTC Sunday 28th March 2021.

Impact to users:

The UAT DSB GUI, REST API, and FIX API services will be unavailable for an additional period of 12 hours.

Action Required:

- This is an informational notice and no action is required to DSB users.
