

11 June 2021

## **NOTIFICATION: DSB Production - Unable to Parse File Download .records file for the date 20210609**

**Audience: All DSB Users**

**Notification details:**

The purpose of this notification is to inform DSB users that the End of Day (EOD) File Download .records files for **June 9, 2021** ([20210609](#)) are not parsable due to a corrupt line within the .records files.

**Impact to users:**

DSB users who previously downloaded the affected files will be unable to parse the files due to a corrupt line.

**Action Required:**

- DSB users consuming the Production End of Day (EOD) File Download service are advised to re-download the .records file for **June 9, 2021** ([20210609](#)) to get the correct and complete .records file.

The DSB is currently investigating the root cause of this issue, if further assistance or clarification is needed regarding this notification please revert back to us and we will respond accordingly.
