Dear Users,

This has been completed in **UAT2** environment.

Regards,
DSB Technical Support Team

5th April 2023

NOTIFICATION: DSB UAT2 New Weekend Maintenance Schedule

Audience: All DSB users

Notification details:
Following the discussion at the Technology Advisory Committee meeting[1], the TAC has approved the following changes to the maintenance schedule for the DSB's as-production UAT environment (UAT2):

UAT2 Current Weekly Maintenance Schedule	UAT2 New Weekly Maintenance Schedule
Sunday 00:30 AM – Sunday 12:30 PM	Saturday 12:30 PM – Sunday 00:30 AM

Where the DSB needs to extend the UAT2 weekend maintenance window, e.g., in support of a release, a notification will be sent to users in advance.

Additionally, UAT2 will join UAT by being included in the additional mid-week maintenance window. This is available every Wednesday, whenever required, between 2:00 AM UTC and 7:00 AM UTC.

Timeline:
Wednesday 12th April 2023 – Operational Hours updated on the DSB website
Saturday 15th April 2023 – First revised UAT2 maintenance window.

Action Required:
No action required.
