NOTIFICATION: 2023 June Template Updates in UPI UAT Environment

Dear   User,

Further to the notification on 13 February advising users that the UPI JSON templates were available, this notification is to advise users of some minor updates to the UPI and OTC ISIN JSON templates in UPI UAT. These updates keep the UPI UAT environment in line with changes made to [UPI UAT Github](#)[1] in April and some further updates to the new UPI Commodity Non-Standard templates, moving the underlying instrument attributes to an underlying   component.

Please   visit   the [release   page](#)[2] on   the   DSB   website   for   further   information.
