

Dear Users,

The purpose of this notification is to remind DSB users of the release schedule this coming weekend, 25th of February 2024 to implement the SSL Certificate Update in the Production environment.

**Additional Action required:**

For users that have an application that uses a custom trust store and anchors which does not include "DigiCert Global Root G2", you will have to include it as a trusted certificate authority. For more information about the recent change, you may access <https://knowledge.digicert.com/general-information/digicert-root-and-intermediate-ca-certificate-updates-2023>. The new anna-dsb.com certificates are signed using the root certificate DigiCert Global Root G2 and the intermediate certificate DigiCert Global G2 TLS RSA SHA256 2020 CA1 which are available via <https://www.digicert.com/kb/digicert-root-certificates.htm>.

For DSB users that does not use a custom trust store, this change should be seamless and have no impact to your application.

**Production Implementation Timeline:**

Standard weekend maintenance schedule from 00:30 AM UTC Sunday 25th February 2024 until 12:30 PM UTC Sunday 25th February 2024.

Regards,  
DSB Technical Support Team
