

NOTIFICATION: Add Digital Assets to Commodity Reference Prices

Audience: All DSB Users

Dear User,

This notification informs users of the addition of Digital Assets to Commodity Reference Prices. The Product Committee has agreed to extend the current enumeration list for Commodities Reference Prices (CRP), wherein new Digital Asset entries will be added to the existing codeset of Commodities Reference Prices. The introduction of new Digital Asset entries will enhance user experience as users will be able to choose Digital Asset as underlying.

This change will indirectly impact UPI and OTC ISIN product templates that make use of CommoditiesReferenceRate.json.

Please visit the release page on the [DSB website](#)¹ for information about this release. The page includes milestones and links to JSON templates.

Release Schedule	
UAT environment	13 April 2024
