

COMPLETION NOTIFICATION: DSB File Download Update

PRODUCTION Release Completion

24 October 2026

Audience: All DSB Users

This notice is to inform all DSB users that the File Download upgrade has been successfully completed in the **PRODUCTION** environment.

Users can now use gzip files in addition to .record and .zip files in the OTC ISIN and UPI Daily Delta folders. The UPI-related enhancements included in this release have also been successfully deployed to Production.

As a reminder, the OTC ISIN, ISIN Migration, ISIN+ and UPI Daily Delta files will now be published at approximately 01:30 UTC. File consumers should continue to monitor for the trigger file before processing the files.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

Please contact the DSB Technical Support Team via email at technical.support@anna-dsb.com if you have any questions in relation to this notification.

Kind regards,
DSB Technical Support Team

UPDATE NOTIFICATION: DSB File Download Update

UAT2 Release Completion

24 October 2026

Audience: All DSB Users

This notice is to inform all DSB users that the **File Download UAT2 Patch** has been successfully completed.

As a reminder, users will now be able to use gzip files in addition to .records and .zip files in Daily Delta folders. In addition, the UPI-related enhancements included within this release have also been successfully deployed to UAT2.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

Please contact the DSB Technical Support Team via email at technical.support@anna-dsb.com if you have any questions in relation to this notification.

Kind regards,
DSB Technical Support Team

UPDATE NOTIFICATION: DSB File Download Update

UAT Release Completion

04 October 2026

Audience: All DSB Users

This notice is to inform all DSB users that the **File Download UAT Patch** has been successfully completed.

As a reminder, users will now be able to use gzip files in addition to .records and .zip files in Daily Delta folders. In addition, the UPI-related enhancements included within this release have also been successfully deployed to UAT.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

01 October 2026

NOTIFICATION: DSB File Download Update

Audience: All DSB Users

Background:

This notification is to inform all DSB users of a scheduled patch release for the DSB Modern File Download (FDL) service in the UAT environment.

As part of ongoing enhancements ahead of the 24 October 2026 Production release, the DSB will deploy a UAT patch to deliver performance improvements, implement fixes to the file download generation process, and introduce Gzip-compressed file downloads within the Modern File Download service. In addition, this release includes improved processing functionality for the UPI Daily Delta generation.

Please see the planned release dates for the File Download update:

Release Schedule	
UAT	04 October 2026
UAT2	24 October 2026
Production	24 October 2026

Impact:

There is no expected impact to users as part of this release. No action or system changes are required by users. The introduction of Gzip compression is an optional file type, intended to improve file download efficiency and performance while maintaining existing file content and functionality.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

Please contact the DSB Technical Support Team via email at technical.support@anna-dsb.com if you have any questions in relation to this notification.

Kind regards,
DSB Technical Support Team

02 June 2026

NOTIFICATION: DSB File Download Update

Audience: All DSB Users

Background:

This notice is to inform all DSB users of an upcoming upgrade to the Daily Delta File Download for both OTC ISIN and UPI services. This release includes a change to the SLA.

As part of this release, users will be able to ingest a gzip version of the OTC ISIN and UPI files, which will be available in the same location as the existing .record and .zip files.

Please see the planned release dates:

Release Schedule	
UAT2 environment	24 October 2026
Production environment	24 October 2026

Impact:

Following the upgrade, the SLA for completion of the file download processing has been extended from 00:10 to 01:30 UTC, however, file generation is expected to complete before this time. Consumers are encouraged to monitor for the presence of the trigger file which signals that the files have been published and can be processed.

Action Required:

- Users must ensure they are disconnected from the relevant DSB environments ahead of the release window.
- Users should update their settings to reflect the new File Download generation SLA.
- File consumers should check for the creation of the trigger file, which indicates that the DSB file generation process has completed and the files are available for consumption.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

Please contact the DSB Technical Support Team via email at technical.support@anna-dsb.com if you have any questions in relation to this notification.

Kind regards,
DSB Technical Support Team

28 April 2026

NOTIFICATION: DSB File Download Update

Audience: All DSB Users

Background:

This notice is to inform all DSB users that the File Download service upgrade, initially planned for UAT2 and Production deployment on 2 May 2026 is being delayed. The deployment of the Gzip functionality, planned for 29 April 2026 will also be delayed.

The DSB will confirm timelines for the Gzip UAT functionality, UAT2 and Production deployment in due course.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

Please contact the DSB Technical Support Team via email at technical.support@anna-dsb.com if you have any questions in relation to this notification.

Kind regards,
DSB Technical Support Team

22 April 2026

Audience: All DSB Users

Background:

This notice is to inform all DSB users that the File Download service enhancement enabling gzip file availability will be deployed to the UAT environment on **29 April 2026** and to the Production environment on **2 May 2026**.

As part of this release, users will be able to ingest a gzip version of the ISIN files, which will be available in the same location as the existing **.record** and **.zip** files.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

Please contact the DSB Technical Support Team via email at technical.support@anna-dsb.com if you have any questions in relation to this notification.

Kind regards,
DSB Technical Support Team

NOTIFICATION: DSB File Download Update

Audience: All DSB Users

Background:

This notice is to inform all DSB users that the File Download service upgrade was deployed to the UAT environment on 29 March 2026.

Some users may have experienced a temporary permissions issue following the deployment; this issue has now been fully resolved.

As part of the release, users will now be able to ingest a gzip version of the ISIN files, available in the same location as the existing .record and .zip files.

Please see the planned release dates:

Release Schedule	
UAT environment	29 March 2026
UAT2 environment	2 May 2026
Production environment	2 May 2026

Impact:

As part of the File Download upgrade, the completion time for the File Download processing will now end at approximately 01:30 UTC in Production for ISIN files.

Action Required:

DSB users must ensure they are disconnected from the respective DSB environments before the release schedule and update their setting to reflect the new FDL generation time.

For details and milestones of the release, please visit <https://www.anna-dsb.com/file-download-update/>.

Please contact the DSB Technical Support Team via email at technical.support@anna-dsb.com if you have any questions in relation to this notification.
