CHANGE REQUEST FORM

Title		CMDTY : Single Index Forward : New template request		
Background	<p>The Commodity Taskforce has recommended the creation of a set of new templates (Swap, Option, Forward) that will allow the user to generate Commodity ISINs based on a single underlying index (Instrument or Prop).</p> <p>The template will allow the definition of a single, asset-specific Base Product (eg: Energy, Agriculture) – in line with the values defined in ISO 20022 (and RTS23) – but excluding the value for Multi-Commodity Exotic (MCEX).</p> <p>Other attributes will be based on the existing Commodity templates.</p> <p>This CRF is linked to ISS-713 and ISS-714.</p>	DSB-ID	ISS-715
