Derivatives Service Bureau (UPI) CHANGE REQUEST FORM

Version	State	Author	Date	Description
1	Draft	M. Surop	26 March 2021	Initial Document
2	Draft	M. Surop	21 April 2021	Updated ToR & GUI details, inserted Attribute Data Dictionary.
3	Draft	M. Surop	28 June 2021	Updated error message for ISIN validation.
4	Draft	M. Surop	19 July 2021	Removed active hyperlinks in Data Dictionary; Amended References section with standard text; Removed Short Name comment in the Comment section.
5	Draft	M. Surop	24 Sept 2021	Updated error message for ISIN validation.

Title	EQTY SWAP Parameter Return Variance Single Name Template Definition							
Background	The following CRF presents a specification for the generation and retrieval of a Unique Product Identifier for the following product:	DSB-ID	UPI-0112					
		Туре	New Template					
	Equity : Swap : Parameter_Return_Variance_Single_Name	Owner	M. Surop					
		Version	5					
		State Draft						
Terms of Referenc	e							
Scope	 This CRF specifies the product definition required for the generation / retrieval of a UPI only. This CRF covers both the input (Request) and output (Record) templates. Support for local jurisdiction / alternate underlier identifier input is currently out of scope. Support for CFI 2019 values is currently out of scope. 							
Requirements	 The product definition will conform to ISO 4914 (UPI). Where possible, the product definition is to be based on the attributes, values and behaviour of the equivalent OTC ISIN. The product definition will return a product short name (FISN). All UPI records stored on the DSB RDL will include the ISO 10962 (CFI) code associated with the UPI along with an equivalent text value for all attributes that are included in the definition of the CFI. 							
Dependencies	 This specification is dependent on final sign-off of the ISO 4914 (UPI) specification. This specification is dependent on PC approval for the use of the OTC ISIN definitions as a basis for the UPI. This specification is dependent on PC approval for the inclusion of ISO 4914 (UPI) conditional attributes. This specification is dependent on TAC Approval for the DSB approach to ISO 10962 (CFI:2019) migration. This specification is dependent on the provision of a human-readable alias for the primary underlier for inclusion in the Short Name (FISN) and a human-readable alias for the Contract Specification. The format of the Short Name is dependent upon the outcome of the ISO 18774 (FISN) systematic review. 							
Assumptions	 This specification assumes that, unless stated, all values and behaviours are based on those of the equivalent OTC ISIN product definition. This specification assumes that no input values are to be defaulted by the system. This specification is based on the current ISO 4914 (UPI) specification (CD) – including attributes that are not currently supported by the equivalent OTC ISIN. This specification is based on the DSB's current equivalent OTC ISIN product definition. This specification is based on the attributes and values defined in ISO 10962 (CFI:2015). In order to provide an example Short Name, this specification defines a format for this attribute that may not conform to the eventually agreed FISN format for the UPI. This specification assumes that the Short Name is defined using the same attributes (where available) as the OTC ISIN Short Name. Where possible, this specification derives GUI details from the ISO 4914 (UPI) specification for attributes that are not included in the current OTC ISIN product definition. 							

Request Template Layout

Product Definition								
Attributes	See Template Layout (above).							
Validation								
Normalization	Not required.							
Attribute Data	This section provides the exact reference or source of the attribute.							
Dictionary	Full Name	Source	Type Enums [CASH, PHYS, OPTL]					
	Delivery Type	ISO 20022 FinancialInstrumentReportingReferenceDataReportV01						
	CFI Delivery Type	ISO 10962 Classification of financial instruments (CFI code)	Enums [Cash, Physical, Elect at Settlement]					
	Underlying Instrument ISIN	Not Available	Max of 12 text (pattern) [A-Z] – firsts 2 characters					

						[A-Z], [0-9] – Next 9 characters [0-9] – Last value is based on ISIN calculation				
Derivation	This section provides additional details to the derivation logic specified in the Template Layout sections (above).									
	Classification TypeConcatenation of the following attributes/values: Instrument Type:Asset Class:Asset Class:Underlying Asset Type:Return or Payout Trigger:Not applicable/undefined:Mot applicable/undefined:Mot applicable/undefined:X''Delivery Type:$CASH \rightarrow C$ $- OPTL \rightarrow E$ E.g.: "SESVXC"									
	Short Name	Name Concatenation of the following attributes/values: Issuer: Issuer: Instrument Type: Swaps" (fixed value) Underlying Asset Type: Sgle Stk" (fixed value) Return or Payout Trigger: Var" (fixed value) E.g.: "NA/Swaps Sgle Stk Var" Note: The Short Name is based on the OTC ISIN that excludes the following fields: Notional Currency Expiry Date 								
	CFI Delivery Type	TypeDerived from the input Delivery Type• CASH \rightarrow "Cash"• PHYS \rightarrow "Physical"• OPTL \rightarrow "Elect at Settlement"								
GUI Details	The following section provides display information for any attributes (and values) that are not included in the related OTC ISIN definition.									
	Attribute	Display Name	Tool Tip (and	• va	lue elaboration)					
	Underlier ID	Underlier ID	underlying a	An identifier that can be used to determine the asset(s), index (indices) or benchmark underlying a contract or, in the case of a foreign exchange derivative, identification of the currency pair or index						
	Underlier ID Source	Underlier ID Source	The origin, or publisher, of the associated underlier ID.							
	UPI	Identification	Unique Product Identifier (ISO 4914).							
	CFI Delivery Type	CFI Delivery Type		The Delivery Type as defined by CFI code: ISO 10962 • As defined by CFI Code: ISO 10962						
Additional Informa	tion									
Reference	References to external documents can be found on the DSB website at this address [https://www.anna-dsb.com/upi- external-reference-documents/].									
	 Currently the system does not hold reference data to support the validation of the LEI or ISIN. This means that it is not possible to validate the existence or classification of the Underlier ID. In addition, this means that human-readable alias is not currently supported for inclusion in the Short Name attribute. Existing OTC ISIN product definition methodology of the Short Name abbreviation (Issuer of TV + "/" + Instrument Type) for Equity Asset Class has "NA/Swaps" whereas Rates has "NA/Swap". 									
Comments	it is not pos readable a • Existing O	lias is not currently su TC ISIN product defi	pported for in nition metho	nclus dolo	sion in the Short Name attrib gy of the Short Name abl	ute. previation (Issuer of TV + "/" +
