

Derivatives Service Bureau (UPI)
CHANGE REQUEST FORM

| Version | State | Author | Date | Description |
|---------|-------|--------|-------------|--|
| 1 | Draft | J. Lim | 29 Mar 2021 | Initial Document |
| 2 | Draft | J. Lim | 26 Apr 2021 | Updated TOR, attribute data dictionary and ISO 4914 equivalence |
| 3 | Draft | J. Lim | 30 Jun 2021 | Updated validation message and codeset name |
| 4 | Draft | J. Lim | 21 Jul 2021 | Updated template layout, attribute section, attribute data dictionary, GUI details and reference |
| 5 | Draft | J. Lim | 07 Oct 2021 | Updated error message for ISIN validation |

| Title | EQUITY FORWARD Price Return Basic Performance Single Index CFD Template Definition | | |
|---------------------------|---|----------------|-----------------|
| Background | <p>The following CRF presents a specification for the generation and retrieval of a Unique Product Identifier for the following product:</p> <ul style="list-style-type: none"> Equity : Forward : Price_Return_Basic_Performance_Single_Index_CFD | DSB-ID | UPI-0116 |
| | | Type | New Template |
| | | Owner | J.Lim |
| | | Version | 5 |
| | | State | Draft |
| Terms of Reference | | | |
| Scope | <ul style="list-style-type: none"> This CRF specifies the product definition required for the generation / retrieval of a UPI only. This CRF covers both the input (Request) and output (Record) templates. Support for local jurisdiction / alternate underlier identifier input is currently out of scope. Support for CFI 2019 values is currently out of scope. | | |
| Requirements | <ul style="list-style-type: none"> The product definition will conform to ISO 4914 (UPI). Where possible, the product definition is to be based on the attributes, values and behaviour of the equivalent OTC ISIN. The product definition will return a product short name (FISN). All UPI records stored on the DSB RDL will include the ISO 10962 (CFI) code associated with the UPI along with an equivalent text value for all attributes that are included in the definition of the CFI. | | |
| Dependencies | <ul style="list-style-type: none"> This specification is dependent on final sign-off of the ISO 4914 (UPI) specification. This specification is dependent on PC approval for the use of the OTC ISIN definitions as a basis for the UPI. This specification is dependent on PC approval for the inclusion of ISO 4914 (UPI) conditional attributes. This specification is dependent on TAC Approval for the DSB approach to ISO 10962 (CFI:2019) migration. This specification is dependent on the provision of a human-readable alias for the primary underlier for inclusion in the Short Name (FISN) and a human-readable alias for the Contract Specification. The format of the Short Name is dependent upon the outcome of the ISO 18774 (FISN) systematic review. | | |
| Assumptions | <ul style="list-style-type: none"> This specification assumes that, unless stated, all values and behaviours are based on those of the equivalent OTC ISIN product definition. This specification assumes that no input values are to be defaulted by the system. This specification is based on the current ISO 4914 (UPI) specification (CD) – including attributes that are not currently supported by the equivalent OTC ISIN. This specification is based on the DSB's current equivalent OTC ISIN product definition. This specification is based on the attributes and values defined in ISO 10962 (CFI:2015). In order to provide an example Short Name, this specification defines a format for this attribute that may not conform to the eventually agreed FISN format for the UPI. This specification assumes that the Short Name is defined using the same attributes (where available) as the OTC ISIN Short Name. Where possible, this specification derives GUI details from the ISO 4914 (UPI) specification for attributes that are not included in the current OTC ISIN product definition. | | |

- The display information in the GUI for the existing attributes (and values) are taken from the OTC ISIN. If such information contains an "ISIN" in the description, replace the value into "UPI".
- The specification for UPI does not include expiry date as part of the attributes, hence "expired" status does not apply.

Request Template Layout

| Section | Attribute | Format | Cat | Example Value | Validation / Derivation | Enum Source | ORIGIN |

| Product Definition | |
|--------------------|--|
| Attributes | <p>See Template Layout (above).</p> <p>a) Underlier Type The Request template described in this document supports products that can be defined on the basis of more than one type of underlier. For this product, the user is asked to select one of the following:</p> <ul style="list-style-type: none"> • Single Stock • Equity Index • Proprietary Index <p>Once the Underlier Type is chosen, the user will be asked to select one of the Underlier ID Sources associated with that Underlier Type and enter the Underlier ID that matches the ID Source.</p> <p><i>* Please see Underlier Input Method Document (see Reference Section below) for further details.</i></p> |
| Validation | <p>1. Underlier ID The following validation will be applied to Underlier ID based on the value selected on Underlier ID Source [ISIN, ESMA, PROP].</p> <p>a. ISIN</p> <ul style="list-style-type: none"> • The input text by user must be in 12 characters (2 alpha, 9 alphanumeric, 1 numeric). • The input text must not have a prefix of "QZ" or "EZ". • A syntactic validation is being performed to confirm an ISIN when hitting create. • If the input ISIN is less or more than 12 characters and/or is not aligned with the above pattern before hitting create, an error message will apply "Value must match the pattern <code>^(?!(EZ QZ))[A-Z]{2}[A-Z0-9]{9}[0-9]\$.</code>" |

| | <ul style="list-style-type: none"> If the input ISIN is not aligned with the above pattern after hitting create, an error message will apply "Error: /Attributes/Underlying: instance failed to match exactly one schema (matched 0 out of 3)". If the input ISIN is aligned with the pattern criteria but ISIN value does not conform with syntactic validation, an error message will apply "Error: ISIN/s must be valid". <p>b. ESMA</p> <ul style="list-style-type: none"> Enumeration list is based on JSON codeset (EsmaEquityIndex.json). <p>c. PROP</p> <ul style="list-style-type: none"> The input text by user must exist in the DSB Proprietary Index Enumeration. The Proprietary index is made on a per asset class and only relevant to the particular asset class based on DSB data. The only exception is asset class "Other" which is applicable to all asset classes. If the input Prop Index does not exist in the DSB Proprietary Index Enumeration, value will be rejected with an error message "Error: Given Index/ices must be an existing and valid Equity or Multi-Asset Index". | | | | | | | | | | | | | | | | | | |

| Classification Type | Concatenation of the following attributes/values: | | | | | | | | | | | | | | | | | | |
| | <ul style="list-style-type: none"> Instrument Type: "J" Asset Class: "E" Underlying Asset Type: "I" Not applicable/undefined: "X" Return or Payout Trigger: "C" Delivery Type: from Request.Delivery Type... | | | | | | | | | | | | | | | | | | |

| | | | | |
|-------------------------------|--|---|---|--------------------------|
| | <ul style="list-style-type: none"> - CASH → C - PHYS → P E.g.: "JEIXCP" | | | |
| Short Name | Concatenation of the following attributes/values: <ul style="list-style-type: none"> • Issuer Name: "NA/" • Instrument Type: "Fwd" (fixed value) • Underlying Asset Type: "Idx" (fixed value) • Return or Payout Trigger: "CFD" (fixed value) E.g.: "NA/Fwd Idx CFD". <i>Note: The Short Name is based on the OTC ISIN that excludes the following fields:</i> <ul style="list-style-type: none"> - Notional Currency - Expiry Date | | | |
| CFI Delivery Type | Derived from the input Delivery Type... <ul style="list-style-type: none"> • CASH → "Cash" • PHYS → "Physical" | | | |
| GUI Details | The following section provides display information for any attributes (and values) that are not included in the related OTC ISIN definition. | | | |
| | Attribute | Display Name | Tool Tip (and • value elaboration) | |
| | Underlier Type | Underlier Type | Indicates the type of underlying asset or entity on which the product is based. | |
| | Underlier ID | Underlier ID | An identifier that can be used to determine the asset(s), index (indices) or benchmark underlying a contract or, in the case of a foreign exchange derivative, identification of the currency pair or index | |
| | Underlier ID Source | Underlier ID Source | The origin, or publisher, of the associated underlier ID. | |
| | UPI | Identification | Unique Product Identifier (ISO 4914). | |
| | CFI Delivery Type | <ul style="list-style-type: none"> • CFI Delivery Type | The Delivery Type as defined by CFI code: ISO 10962 <ul style="list-style-type: none"> • As defined by CFI Code: ISO 10962 | |
| Additional Information | | | | |
| Reference | References to external documents can be found on the DSB website at this address [https://www.anna-dsb.com/upi-external-reference-documents/]. | | | |
| Comments | <ul style="list-style-type: none"> • Text values in the Short Name are taken from "ISO Abbrev w acronyms-Final_v0.5.5.FINAL." • Currently the system does not hold reference data to support the validation of the LEI or ISIN. This means that it is not possible to validate the existence or classification of the Underlier ID. In addition, this means that human-readable alias is not currently supported for inclusion in the Short Name attribute. | | | |
| ISO 4914 Equivalence | ISO 4914 | | Request Attribute | Record Attribute |
| | Asset Class | M | Asset Class | Asset Class |
| | Instrument Type | M | Instrument Type | Instrument Type |
| | Delivery Type | M | Delivery Type | Delivery Type |
| | | | | CFI Delivery Type |
| | Return, pricing method or payout trigger | M | Not Required | Return or Payout Trigger |
| Underlier ID | C | Underlier ID | Underlying Instrument ISIN | |
| | C | | Underlying Instrument Index | |

| | | | | |
|--|--|---|---------------------|----------------------------------|
| | | C | | Underlying Instrument Index Prop |
| | Underlier ID source | C | Underlier ID source | Not Required |
| | Underlier Type | M | Not Required | Underlying Asset Type |
| | Underlying contract tenor period* | C | Not Required | |
| | Underlying contract tenor period multiplier* | C | Not Required | |

*Underlying Contract Tenor Period / Multiplier applies only to a derivative contract underlying another derivative. For this product, the underlying is a single stock/index and so these attributes are not required.
