2	Draft	J. Lim	22 Jul 2021	Updated attribute data dictionary and reference

Title	EQUITY SWAP Parameter Return Dividend Basket Template Definition			
Background	The following CRF presents a specification for the generation and retrieval of a Unique Product Identifier for the following product:		DSB-ID	UPI-0357
	<ul style="list-style-type: none"> Equity : Swap : Parameter_Return_Dividend_Basket 		Type	New Template
			Owner	J.Lim
			Version	2
			State	Draft
Terms of Reference				
Scope	<ul style="list-style-type: none"> This CRF specifies the product definition required for the generation / retrieval of a UPI only. This CRF covers both the input (Request) and output (Record) templates. Support for local jurisdiction / alternate underlier identifier input is currently out of scope. Support for CFI 2019 values is currently out of scope. 			
Requirements	<ul style="list-style-type: none"> The product definition will conform to ISO 4914 (UPI). Where possible, the product definition is to be based on the attributes, values and behaviour of the equivalent OTC ISIN. The product definition will return a product short name (FISN). All UPI records stored on the DSB RDL will include the ISO 10962 (CFI) code associated with the UPI along with an equivalent text value for all attributes that are included in the definition of the CFI. 			
Dependencies	<ul style="list-style-type: none"> This specification is dependent on final sign-off of the ISO 4914 (UPI) specification. This specification is dependent on PC approval for the use of the OTC ISIN definitions as a basis for the UPI. This specification is dependent on PC approval for the inclusion of ISO 4914 (UPI) conditional attributes. This specification is dependent on TAC Approval for the DSB approach to ISO 10962 (CFI:2019) migration. This specification is dependent on the provision of a human-readable alias for the primary underlier for inclusion in the Short Name (FISN) and a human-readable alias for the Contract Specification. The format of the Short Name is dependent upon the outcome of the ISO 18774 (FISN) systematic review. 			
Assumptions	<ul style="list-style-type: none"> This specification assumes that, unless stated, all values and behaviours are based on those of the equivalent OTC ISIN product definition. This specification assumes that no input values are to be defaulted by the system. This specification is based on the current ISO 4914 (UPI) specification (CD) – including attributes that are not currently supported by the equivalent OTC ISIN. This specification is based on the DSB's current equivalent OTC ISIN product definition. This specification is based on the attributes and values defined in ISO 10962 (CFI:2015). In order to provide an example Short Name, this specification defines a format for this attribute that may not conform to the eventually agreed FISN format for the UPI. This specification assumes that the Short Name is defined using the same attributes (where available) as the OTC ISIN Short Name. Where possible, this specification derives GUI details from the ISO 4914 (UPI) specification for attributes that are not included in the current OTC ISIN product definition. The display information in the GUI for the existing attributes (and values) are taken from the OTC ISIN. If such information contains an "ISIN" in the description, replace the value into "UPI". The specification for UPI does not include expiry date as part of the attributes, hence "expired" status does not apply. The specification of individual Underlying identifiers and their sources is not required as part of the definition of a product based on a custom basket – as defined in the ISO 4914 (UPI) specification.

	Return or Payout Trigger	String	D	Dividend	Fixed value	CFI:2015 Char#4 (SE*D**)	ISIN
	CFI Delivery Type	String	D	Cash	See CRF (Derivations)	CFI:2015 Char#6 (SE****)	NEW

Product Definition		
Attributes	See Template Layout (above).	
Validation	Not Required.	
Normalization	Not Required.	
Attribute Data Dictionary	This section provides the exact reference or source of the attribute.	
	Full Name	Source
	Type	
Delivery Type	ISO 20022 FinancialInstrumentReportingReferenceDataReport V01	Enums [CASH; PHYS; OPTL]
CFI Delivery Type	ISO 10962 Classification of financial instruments (CFI code)	Enums [Cash; Physical; Elect at Settlement]
Derivation	This section provides additional details to the derivation logic specified in the Template Layout sections (above).	
	Classification Type	Concatenation of the following attributes/values: <ul style="list-style-type: none"> Instrument Type: "S" Asset Class: "E" Underlying Asset Type: "B" Return or Payout Trigger: "D" Not applicable/undefined: "X" Delivery Type: from Request.Delivery Type... <ul style="list-style-type: none"> - CASH → C - PHYS → P - OPTL → E E.g.: "SEBDXC"
	Short Name	Concatenation of the following attributes/values: <ul style="list-style-type: none"> Issuer Name: "NA/" Instrument Type: "Swaps" (fixed value) Underlying Asset Type: "Bskt" (fixed value) Return or Payout Trigger: "Div" (fixed value) E.g.: "NA/Swaps Bskt Div". Note: The Short Name is based on the OTC ISIN that excludes the following fields: <ul style="list-style-type: none"> - Notional Currency

		- <i>Expiry Date</i>		
	CFI Delivery Type	Derived from the input Delivery Type... <ul style="list-style-type: none"> • CASH → "Cash" • PHYS → "Physical" • OPTL → "Elect at Settlement" 		
GUI Details	The following section provides display information for any attributes (and values) that are not included in the related OTC ISIN definition.			
	Attribute	Display Name	Tool Tip (and • value elaboration)	
	UPI	Identification	Unique Product Identifier (ISO 4914).	
	CFI Delivery Type	CFI Delivery Type	<ul style="list-style-type: none"> • The Delivery Type as defined by CFI code: ISO 10962As defined by CFI Code: ISO 10962 	
Additional Information				
Reference	References to external documents can be found on the DSB website at this address [https://www.anna-dsb.com/upi-external-reference-documents/].			
Comments	<ul style="list-style-type: none"> • Text values in the Short Name are taken from "ISO Abbrev w acronyms-Final_v0.5.5.FINAL." • Existing OTC ISIN product definition methodology of the Short Name abbreviation for instrument type are different per asset class – Rates and Commodities have "NA/Swap", Foreign_Exchange and Equity have "NA/Swaps" whereas Credit has "NA/CDS". 			
ISO 4914 Equivalence	ISO 4914		Request Attribute	Record Attribute
	Asset Class	M	Asset Class	Asset Class
	Instrument Type	M	Instrument Type	Instrument Type
	Delivery Type	M	Delivery Type	Delivery Type
				CFI Delivery Type
	Return, pricing method or payout trigger	M	Not Required	Return or Payout Trigger
	Underlier ID*	C	Not Required	
	Underlier ID source *	C	Not Required	
Underlier Type	M	Not Required	Underlying Asset Type	

*Underlier ID/ Source are not required for a custom of basket defined in the ISO 4914 (UPI) specification.
