## Derivatives Service Bureau newsletter

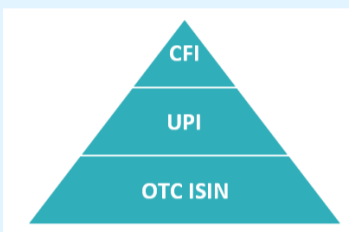

The Derivatives Service Bureau (DSB) publishes its first quarterly newsletter below, to share information about DSB activities, important industry news, and to foster further engagement and collaboration.

Please note that the [DSB's annual consultation](#) is open for industry feedback until 17:00 UTC on June 1<sup>st</sup> 2020.

[Please do get in touch](#) for more information on how to get involved with the DSB.

### So What's in the CFI, UPI and OTC ISIN

Several users have reached out with this question in recent weeks, prompting this note: [Read more](#)

### Getting it Right the First Time: The importance of data alignment in OTC ISIN records

The DSB is working with industry participants to publish best practice guidance that helps OTC derivatives data practitioners increasingly focus on data alignment: [Read more](#)

## Looking Ahead

### COVID-19 Statement

The DSB has received several queries and questionnaires in relation to the Coronavirus (COVID-19) recently, characterised as a pandemic by the World Health Organisation. As a result of these enquiries, an update for all DSB users is available: [Read more](#)

### ToTV March Product Release

Bug fix for EoD ToTV files generated in historical mode, Optimization of ToTV/uToTV File Download generation, and Introduction of idle timeout for ToTV requests made via FIX API: [Read more](#)

### New Inflation cap for option template release

[Read more](#)

### Dynamic Enumerations in UAT
