1	Minutes: Review of open actions
----------	--

- **Action 55:** The Product Committee agreed to update this action to formalise the request to the ISDA representative to attend a future Product Committee meeting
Action 55: The Product Committee to formally invite ISDA representative to attend a future Product Committee meeting to discuss the progress on the mapping of the ISDA Taxonomy 2.0 to ISO 10962 (CFI) and the FpML Enumerations to ISO 20022 Enumerations and any open questions on technical implementation of the mappings
 - **Action 57:** Secretariat to complete an analysis of the FpML Index list to the RTS 23 Index List and present to the Product Committee for subsequent decision-making – closed

The Product Committee discussed the potential ownership of mapping the FpML Index list to ESMA RTS 23 Index list and agreed that the oversight should sit with the Committee. A common interpretation to the ESMA values needs to be completed and where an equivalent is not found the FpML Index name should be used truncated to 25 characters. This could then form the basis for a static mapping table housed within the ISIN engine.

Action: Secretariat to request estimate to incorporate ISDA FpML Floating Rate Index scheme mapping to ISO 20022 or additional value in an alphanumeric format truncated to 25 characters from ISIN Engine Team

Action: Secretariat to share proposal to use ISDA FpML Floating Rate Index scheme with ESMA representative to confirm if approach is feasible
-

2	Final ISIN Principles
----------	------------------------------

-
- The Product Committee continued to review the Final ISIN Principles paper and iterated through the comments/updates suggested by the individual members, these were agreed on a case by case basis
 - The Product Committee did not complete the full review of the paper and agreed to further extend the planned publication of the Final ISIN Principle paper by 1 week in order to include in section 6.1 a clarification from ESMA on the scope and requirements for ISIN generation as well as to allow additional time to iterate through the remaining analysis and proposal sections of the document.
 - An observer advised the Product Committee that CFI revision timetable was likely to be with 12months rather than the 18months stated in the Final ISIN Principles paper and should be updated accordingly

Action: Secretariat to circulate Final ISIN principles paper for final feedback and iteration with deadline of 10 March 2017 for responses
