

NOTIFICATION: DSB ToTV/ uToTV Functionality

Audience: All DSB Users

Notification details:

Following the update provided by ESMA at the DSB's webinar on Friday that further guidance is expected in the near future to provide additional clarification on ToTV, the DSB will be delaying implementation of its ToTV/ uToTV service into UAT.

Due to the above, it is essential for the DSB to evaluate next steps given the key assumptions that are now at risk. The DSB is working to identify how best to facilitate user integration, independent of the business logic used to set the DSB's ToTV and uToTV indicators.

The DSB will provide a further update to users next week.
