

1 Graphical User Interface (GUI) Revamp

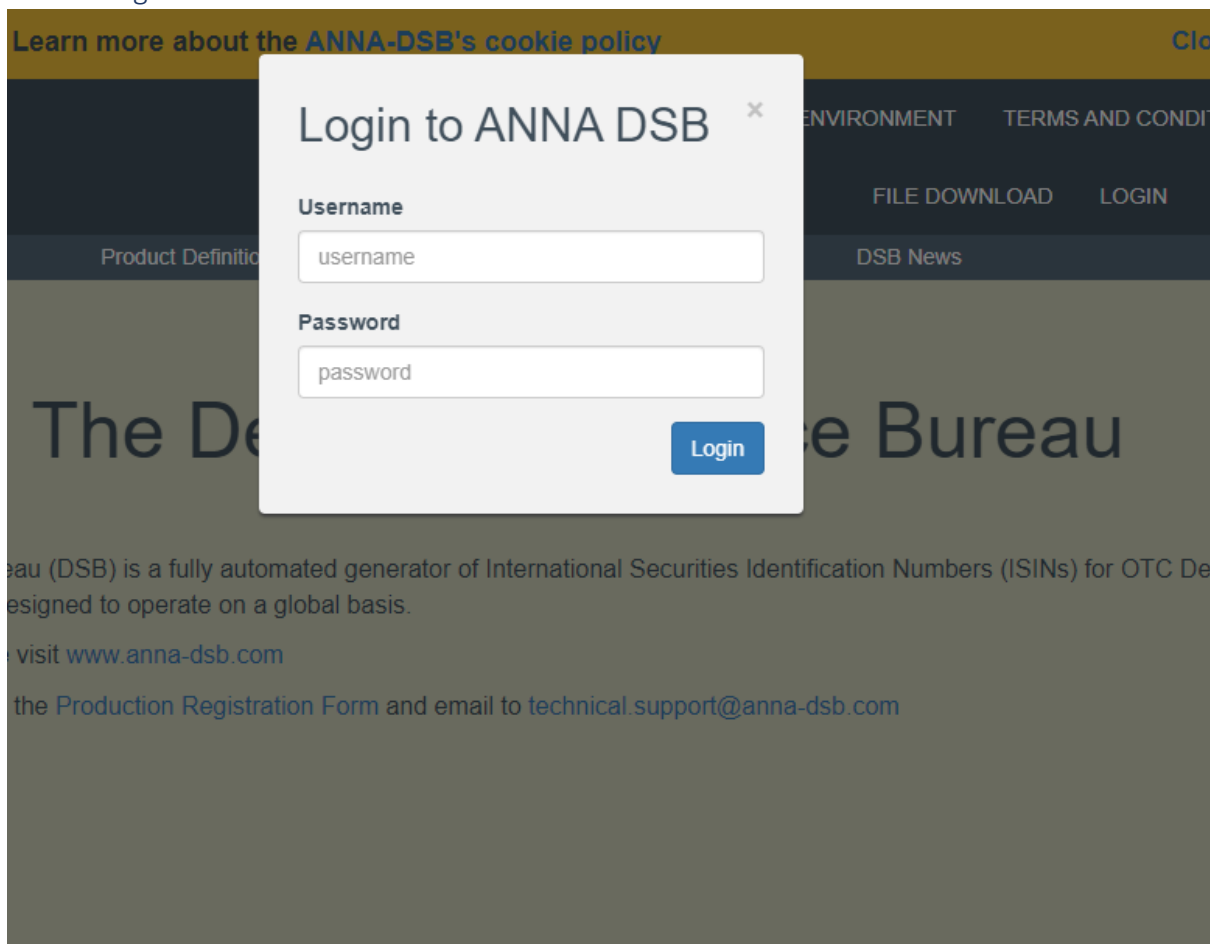

1.1 Summary

The GUI revamp enhances the DSB user experience by providing a smoother and easier to use GUI. Changes to the GUI include:

- Improvement in look and feel
- Bringing the colour scheme in line with the DSB Marketing website
- No pop up when logging in
- New bar at the top between Create, Search, Product Definitions, FAQ, Notifications, DSB News
- Introduction of Select All checkbox in the Properties dropdown
- Reset and Change password criteria for special character is marked red when password entered has blank space.

1.3.4 Introduction of Select All checkbox in the Properties dropdown

The screenshot displays the ANNA DSB web application interface. At the top, there is a navigation bar with the ANNA logo on the left and links for 'UAT ENVIRONMENT', 'TERMS AND CONDITIONS', 'FILE DOWNLOAD', and a user profile 'uat-power.alison.bargeron@anna-dsb.com'. Below this is a secondary navigation bar with buttons for 'Create', 'Search', 'Product Definitions', 'FAQ', 'Notifications', and 'DSB News'. The main content area is titled 'ISIN' and contains a form for instrument details. The form includes dropdown menus for 'Asset Class' (Equity), 'Instrument Type' (Forward), 'Product' (Price_Return_Basic_Performa...), and 'Level' (InstRefDataReporting), along with a 'LOAD' button. Below the form, the instrument name 'Request.Equity.Forward.Price_Return_Basic_Performance_Single_Index.InstRefDataReporting' is displayed. Underneath, there is a 'Header' section with four dropdown menus: 'Asset Class' (Equity), 'Instrument Type' (Forward), 'Product' (Price_Return_Basic_Performance_Single_Index), and 'Level' (InstRefDataReporting). Below the header is an 'Attributes' section with a 'Properties' dropdown menu. The 'Properties' dropdown menu is open, showing a list of checkboxes: 'Select All' (checked), 'Notional Currency', 'Expiry Date', 'Underlying', and 'Price Multiplier' (checked). The 'Underlying' section is partially visible at the bottom of the page.
