

NOTIFICATION : DSB Invitation to participate in the 2019/20 Product Committee

The Derivatives Service Bureau invites you to participate in the 2019/20 Product Committee.

The 2019/20 Product Committee Charter includes representation from new participant categories including custodians, data vendors and trade associations. Participation by these industry stakeholders expands on existing representation from the buy-side, the sell-side and trading venues. The size of the DSB 2019/20 Product Committee will also increase from 9 to 15 voting members.

Product Committee discussion will move from developing ISIN products and defining product templates, to solving additional OTC Derivative ISIN use cases and examining the introduction of hierarchies, as well as discussions on what to prioritise. The DSB values representation on a fair and equitable basis within the ISIN user community, and so will be allocating voting participation with 3 representatives from each sector.

Please follow the links for more details about how to apply and [to view a copy of the new Product Committee charter](#) and [download the application form](#).

Interested OTC Derivative users of ISINs with relevant experience are able to submit their applications until 5pm UTC on 2nd November this year, with new Product Committee details being announced on the 4th December.

Please contact technical.support@anna-dsb.com for all support & connectivity issues
