Please refer to Best Practice Guidelines and FAQs that can be found in the Other Documents section on the DSB website.

5.2 Additional Comments

- The Contract Specification attribute only applies to Credit.Swap.Corporate; Credit.Swap.Municipal; Credit.Swap.Sovereign and Credit.Swap.Non_Standard. It does not apply to Credit.Swap.Loan; Credit.Swap.ABS; Credit.Swap.Index; Credit.Swap.Index_Tranche and Credit.Swap.Total_Return_Swap.
- For the input (Request) template, Contract Specification attribute will be marked as Mandatory in which case all new UPIs will be created with the said field. With this, both new OTC ISINs and UPIs will include the Contract Specification attribute.
- For the existing OTC ISINs without Contract Specification attribute, the system will support a UPI without Contract Specification as it will automatically create its legacy UPI making this field in the output (Record) template as Optional.
